This the fifth Office action for serial number 10/038,834, Electronic Equipment Mounting Angle Varying Apparatus filed January 8, 2002. Pending claims are 2-11, 18 and 19.

### ***Withdrawal of Finality***

Upon review of the pending claims and the discovery of unresolved 112 issues directed at a number of claims, the previous allowance of claims and the finality of the last Office action has been withdrawn and the following action taken. Any inconvenience is regretted. The after final amendment filed April 12, 2005 has been entered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-10 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, line 6, "a die extraction space" and "upper and lower die extraction" should read –the die extraction space- and –the upper and lower die extraction- to reflect the antecedence found at lines 3 and 4 of this claim.

In claim 19, line 18, "the arm latching portion" lacks antecedent basis.

***Allowable Subject Matter***

Claims 2-6, 11 and 18 are allowed.

Claims 7-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
